# REGO-FIX powRgrip®

## EINFACH / SIMPLE

Werkzeug per Knopfdruck in 8 Sekunden gespannt  
Tool is clamped in 8 seconds by pushing one single button

## SICHER / SAFE

Keine Hitzeentwicklung – Hohe Spannkraft  
No heat – high clamping force

## powRgrip®

Das Werkzeugspannsystem für heute und morgen  
The tool clamping system of today and tomorrow

chuck adapter

≤ 25 %

PGST ist bis zu 25% kürzer als das konventionelle PG-System. Normschäfte können vollständig eingesteckt werden.

PGST is up to 25% shorter than conventional PG. Norm shafts can be fully inserted.

≤ 3 μm

Gesamtsystemrundlauf  
≤ 3 μm bei 3 x D.

Total system runout TIR ≤ 3 μm at 3 x D.

> 20,000x

Höchste Haltekraft und Rundlaufgenauigkeit auch nach 20'000-fachem Werkzeugwechsel.

Maximum clamping force and low runout, even after 20,000 tool changes.

Hervorragende Vibrationsdämpfung.

Excellent vibration dampening.
